

Peel-Harvey Catchment Council

MINUTES OF MEETING

Held on Thursday 18 April 2013, commencing at 9.05am
at the Marine Operations Centre, 107 Breakwater Parade, Mandurah Marina

The Chairman opened the meeting at 9.05am.

1. Attendance

<u>Present:</u>	Jan Star	Chairman
	Andy Gulliver	Deputy Chairman [from 12.35pm]
	Marilyn Gray	Treasurer [from 9.10am]
	Bob Pond	Executive Committee [DoW]
	Don Glenister	Member
	Shane Kelliher	Member
	Denyse Needham	Member
	Cr Richard Smith	Member – Local Government Coastal [until 12.05pm]
	Nuray Veryeri	Member [until 12.05pm]
	Craig Olejnik	DEC
<u>In Attendance:</u>	Jane O’Malley	PHCC - Executive Officer
	Kim Wilson	Program Manager
	Thelma Crook	Project Officer [from 10.35am]
	Juan Luis Montoya	PHCC - FNS Project Manager
	Colleen Archibald	Waroona Landcare Centre [from 11.25am]
	Paddy Strano	PHCC - Stormwater Strategy Officer
	Patricia Sutton	PHCC – Minute Taker [until 1.25pm]
	Kristy Gregory	Landcare SJ
	Francis Smit	Executive Officer Landcare SJ
<u>Guests:</u>	Dr Fiona Valesini	Snr Research Fellow Centre for Fish, Fisheries and Aquatic Ecosystems Research, Murdoch University
	Tom Lerner	Senior Environmental Planner, Shire of Murray
<u>Apologies:</u>	Dr Peter Hick	Secretary
	Jim McNamara	Member [Leave of Absence]
	David Arkwright	Peel Development Commission
	Leon Brouwer	DoW
	Scott Haine	Department of Planning (Peel)
	Rob Summers	DAFWA
	Dale Miles	Greening Australia
	Christine Comer	Lake Clifton Recovery Coordinator
	Jane Townsend	Rivercare Officer (HRRT)
<u>Absent:</u>	Maxine Whitely	Member
	Cr Dennis Veitch	Member – Local Government Inland

1.1 Leave of Absence – request from Jim McNamara

Moved: Bob Pond

Seconded: Denyse Needham

That Leave of Absence be granted for Jim McNamara until further notice.

CARRIED

2. Declarations of Interest

No declarations of interest.

3. Confirmation of Minutes of Meeting held on 21 February 2013

3.1 Confirmation of Minutes of Meeting held on 21 February 2013.

Moved: Don Glenister

Seconded: Nuray Veryeri

That the Minutes of the meeting held on 21 February 2013 be confirmed as a true and correct record of the meeting.

CARRIED

[Marilyn Gray arrived at 9.10am]

4. Business arising from previous Minutes

Summary of Actions arising from previous meetings:

No.	Details	Resp.	Complete
1.	Chairman's Report [Item 7, 16 August 2012]. There was a need to focus on successes, such as frogs returning to Lake Mealup. Progress towards getting a link of frog sounds onto website. <i>Jane has found software and will continue to explore (18/10/12).</i>	Jane O'Malley	In progress
2.	Letter from Shire of Harvey. Referral – application for planning consent, establishment of horticulture – Lot 2 (No 288) Bagieau Rd. [Item 5.1, April 2012] <i>Refer the matter to the Executive for next steps in the preparation of a PHCC position statement in respect to horticulture in the catchment.</i> 18.4.13 - This is an ongoing issue with concerns raised regarding water issues. Preliminary guidance is required from Executive. Remove item from Actions List.	Jane O'Malley	Remove
3.	Chair's Report [Item 7, 20 September 2012] Oil Mallee. Maxine to forward information on Oil Mallee initiative to Jan for distribution. <i>Further liaison required with SWCC about future of oil mallees already planted and their role in the CFI. Maxine to report.</i> 18.4.13 - There is a role for DAFWA but their funding has been cut. Leave on Actions List.	Maxine Whitely	

4.	Agency and Officer Reports [Item 11.5, 18 October 2012] Christine to investigate opening a Flickr photo sharing account for Lake Clifton photos. <i>A link to Photopost photos has been created on our website Home Page.</i> <i>18.4.2013 – Christine Comer has attempted to progress. Remove from Action List</i>	Christine Comer	Remove
5.	Agency and Officer Reports [Item 11.1, 20 December 2012]. Find out details of the DoW groundwater assessment program being delivered by Carey Johnston and see if it is relevant for a future presentation to the PHCC. <i>Bob to arrange presentation on the DoW groundwater assessment program.</i> <i>18.4.13 – Bob to arrange Presentation on Groundwater Assessment Program</i>	Bob Pond	
6.	Agency and Officer Reports [Item 11.3, 20 December 2012]. DEC to provide presentation in 2013 on results of fauna surveys, showing species such as Honey Possums. <i>18 April 2013 - DEC to provide presentation at the meeting scheduled for Thursday 20 June.</i>	Craig Olejnik	Pending
7.	Treasurer's Report [Item 5.1, 21 February 2013]. Jane to send a letter to SWCC to demonstrate the framework for funding is inadequate to meet the real costs of delivering projects, with Oakley Brook as an example. <i>Letter has been sent – refer correspondence out – item 0018_2013_1704</i>	Jane O'Malley	Complete
8.	Executive Officer's Report [Item 8.5, 21 February 2013]. That a letter of thanks for the financial contribution be sent to the City of Mandurah. <i>Letter has been sent – refer correspondence out – item 0017_2013_1704</i>	Jane O'Malley	Complete

3. Treasurer's Report

3.1 March 2013 Financials presented

Marilyn presented the March 2013 Financials and explained that there had been a lot of movement in current earnings due to several journal entries related to project overheads, funding (including the City of Mandurah contribution) and salaries.

Moved: Richard Smith Seconded: Denyse Needham

That the March 2013 Financial reports be ratified.

CARRIED

3.2 Finance and Audit Committee Meeting Minutes

The Treasurer presented the Finance and Audit Committee Minutes. Members were happy to endorse those minutes.

Moved: Richard Smith Seconded: Denyse Needham

That the Finance and Audit Committee Meeting Notes of Meeting of 22 March 2013 be ratified.

CARRIED

6. Correspondence

The Correspondence List for February 2013 – April 2013 was circulated.

6.1 Items for Comment - Correspondence In

Of interest was the submission on the Strategic Assessment of the Perth and Peel Region prepared by Ironbark Environmental on behalf of the City of Mandurah. The submission put in place a prompt on how early submissions will be dealt with.

ACTION: Jane to write to the City of Mandurah, congratulating them on their proactive approach in preparing the submission on the Strategic Assessment of the Perth and Peel Region and advise it was well received by the PHCC.

6.2 Items for Comment – Correspondence Out

No actions.

6.3 Periodicals

Item 3.9 It was noted that the WA Coastal Awards were now open. This prompted discussion around the UNEP (United Nations Environmental Program) nominations were currently open. Jan asked that staff look to submitting nominations in relevant categories for the Banksia Awards (nominations close 26 July).

ACTION: Jane to look at submitting nominations in relevant categories for the 2013 Banksia Awards (closing 26 July).

Moved: Don Glenister Seconded: Marilyn Gray

That Correspondence In and Correspondence Out be accepted.

CARRIED

7. Chairman's Report

Jan Star presented her report:

The two big ongoing issues are the Strategic Assessment of the Perth and Peel Region and the new Liberal government commitment to a coordinating body for the Estuary. We have also been putting in CfoC applications and submissions while finalising the WQIP sub-catchment plans for publication, and submitting the Review of the WQIP, as well as overseeing the final touches to the new accommodation. So Jane and her staff have been a little busy.

The Strategic Assessment has looked at the Conservation Outcomes for EPBC listed Threatened Flora and TECs and for the Peel-Yalgorup Ramsar Wetlands. We made a submission on the last one – which is on our website. This last meeting we were invited to comment on the Conservation Outcomes for Carnaby's Cockatoos and also on the Impact Assessment Methodology. DPC are also keen to get Stakeholder submissions early rather than late. The one by the City of Mandurah, which was distributed last meeting, was seen as a good model. While the PHCC will hopefully be able to do one, individuals are also encouraged. A consultant is to be engaged to do the paper on Matters of National Environmental Significance (MNES) which will then go out for comment. Not surprisingly the timelines for the whole project have been extended, at least until October.

As you probably know there was an election commitment from Kim Hames, following lobbying by us and the PDC, to establish a Peel-Harvey Estuary Management Committee (PHEMC). They also committed to recognising and supporting the case for establishing an independent region; to provide \$400,000 for science effort and to report to the Minister for Regional Development. To further this we have already presented a proposition to Dr Hames for best management of the \$400,000, enabling us to have a Science co-ordinator /communicator, and we have started discussions with the PDC. The proposal is tabled.

Our Executive Officer will cover the other points but I will mention that I was very impressed by the series of talks run by Christine as part of the Lake Clifton project, although I only managed to get to one of them. I was also invited to the National NRM Chairs' Conference (in Mandurah) which was interesting and some other members attended the reception and/or dinner. I was interested to see that they are working, with the Wentworth Group, on Environmental Accounting and have tabled a short paper.

I also was invited to a Conference on Climate Change and Forests run by Professor Richard Harper. While we made another submission to the Metro Local Government Review it was in the form of an online survey which didn't really enable consultation. I have tabled our responses, which accord with our previous position, so I trust are acceptable.

ACTION: Pat to upload the PHCC submissions on the Strategic Assessment of the Perth and Peel Region on website.

Members discussed the proposed Senior Scientist position, including the following points:

- May not need to be a scientist, but someone who understands the scope and gaps in the science, and who can communicate it well.
- How funding for the position could be secured, and what has already been committed.
- The merits of the position enabling the production of an annual report card.

Moved: Denyse Needham

Seconded: Bob Pond

That the Chairman's Report be accepted.

CARRIED

8. Executive Officer's Report

8.1 Funding Applications – Australian Government

Jane provided a presentation detailing the expressions of interest and full applications submitted to the Australian Government, as summarised below. It is expected that successful EOIs will be advised and invited to make full applications in mid May.

Jane thanked all staff for their efforts in getting the EOIs and full applications prepared.

CfoC	\$1,995,000	Implementing Water Quality Improvement to protect the Peel-Yalgorup Ramsar Site
CfoC	\$1,997,930	Peel-Yalgorup Ramsar Site: Protecting Ecological Character & Threatened Species
Bio.	\$3,569,552	Peel-Harvey Rivers to Ramsar: Connecting River Corridors for Landscape Resilience
CfoC	\$49,000	Building Community Capacity for Sustainable Ag Practices – Healthy Waterways
CfoC	\$623,000	Better stormwater quality management through capacity building and retrofitting

ACTION: Jane to write to Don Randall asking for his support for the PHCC applications for funding under the Caring for Our Country and Clean Energy Fund (Biodiversity) funding.

8.2 Accommodation – 58 Sutton Street

Construction is almost complete and it is hoped that we will be in a position to commence operations from 58 Sutton Street within the next few weeks. The 5 + 5 year lease officially commences from 20 May 2013. Landscaping will be the next stage.

8.3 Peel Regional Leaders Forum

An Executive Officer has been appointed and the group are reviewing the Peel Priorities (for investment). Jane is pursuing to have the priorities, as adopted by the PHCC retained as high priorities through this process.

Moved: Nuray Veryeri

Seconded: Don Glenister

That the Executive Officer's Report be accepted.

CARRIED

Marilyn requested to officially record on behalf of the Executive, the officers' and Bob and Craig's efforts in putting the applications together.

9. Monthly Meeting Inventory

Members noted the monthly meeting inventory for February 2013 – April 2013.

The meeting broke for morning tea at 10.30 and resumed at 10.50am.

10. Guest Speaker – Mr Tom Lerner, Senior Environmental Planner Shire of Murray on the Shire of Murray’s draft Biodiversity Strategy

Tom Lerner provided a presentation on the Shire of Murray Local Biodiversity Strategy which is currently out for public consultation. The aim of the Strategy is to identify natural areas within the Shire for retention and/or protection and establish targets and mechanisms to retain and/or protect these areas. It was noted that a case currently being heard at the State Appeals Tribunal, which may uphold the protection of a significant natural area, based on that local governments endorsed Biodiversity Strategy. The importance of linking a Biodiversity Strategy to a head of power (e.g. Town Planning Scheme) was noted.

The following points were noted and discussed:

- The protection of wetlands and ecological communities around the North Dandalup area.
- Policy dictates that revegetation be provided along drainage routes.
- 15% revegetation a requirement of developers.
- Hydrology is a top concern at Shire of Murray.
- Provision for community input.
- Clearing history in the Shire of Murray.

Tom thanked PHCC members Jane O’Malley, Bob Pond and Craig Olejnik who were on the Biodiversity working group. Other members include DoP, UDIA, Perth Biodiversity Project.

11. Guest Speaker – Dr Fiona Valesini (Murdoch University) – Research and Gaps in the Peel-Harvey

Dr Valesini provided a Powerpoint presentation giving an overview of research and research gaps in the Peel-Harvey. She discussed the following points:

1. Estuarine Hydrology & Sediment biochemistry
2. Key Plants
3. Key animals: benthic inverts (critical part of the food chain – good indicators of environmental health). Pre-Cut and post-Cut – declines in density, diversity and richness; marked declines in sensitive taxa and increases in opportunistic taxa. No dedicated monitoring scheme for these animals.
4. Key animals – fish and crabs. Strong increase in blowfish from 1980s to 2000s. Increase in those fish associated with weed. Currently looking at western striped trumpeter and black bream in rivers. No other work done for the PH Estuary. Crabs – no ongoing monitoring regime. Work on prawns in late 1980s, nothing since then.

5. Key animals – dolphins. No studies done until last year – the very first research study. Focused in Port Mandurah / Mandurah channel area. There is little actual formal research on bird groups. Would be great to see that information in a research basis.
6. Habitat-biota interactions. Late 2000s did research on relationships established.
7. Ecological interactions (food webs). Virtually no dietary data for any other animal (apart from crabs and 1-2 fish species) in the Peel-Harvey Estuary.
8. Human usage patterns. Relatively little information on how people use the estuary on a daily basis.
9. Ecosystem-scale projects. Catchment to coast pathways. Abiotic-biotic links across the ecosystem. Ecological connectivity between estuary and adjoining environments. Ecosystem health assessment and reporting. Ecosystem-scale predictive models. Ecosystem services.
10. Summary of major knowledge gaps.
11. Proposed research directions. Needed to tie existing science together and systematically expose key knowledge gaps + 3 other points.
12. Murdoch and UWA proposed research project with various partner agencies. Two components.
13. Research-adaptive management linkages. Key points: 1 Adaptive management of what? 2. If we can't (or don't) measure it we can't manage it. 3. Research best links to adaptive management if it tells you where you are in the context of where you want to go and how to get there.

Fiona said this was an overview of her role and she would welcome a close relationship with a PHCC Senior Scientist.

The meeting broke for lunch at 12:05pm and resumed at 12:35pm

12. Presentation of WQIP Implementation 2008-2011 Review

Jane provided a presentation outlining the Peel-Harvey WQIP Implementation Review 2008-2011, prepared by the PHCC. The major finding of the review is that:

“... this review shows that the Peel-Harvey WQIP is a long way from full implementation, with many barriers and issues for each management measure still remaining.

The WQIP is a plan, with a broad target of a reduction of 75 tonne of P load entering the PeelHarvey Estuary, but no practical means to measure this target. Moreover the plan lacks specific milestones or key performance indicators to which implementation can be measured, and overlooks a number of water quality concerns including nitrogen and sediments. The lack of costing, even as an estimative guide, has left the plan with no benchmark to assess if the level of resourcing and commitment has been sufficient to make a measurable improvement in water quality in the Peel-Harvey.

There is no defined prioritisation, or timeframe within which the full implementation of all WQIP Recommendations will occur. The scale of monitoring required to effectively apply the “Adaptive Management Strategy” identified in the WQIP is not defined. Further, or perhaps due to the above, only a limited amount of implementation has taken place. It can be argued the implementation approach has been fractured, relying on the interest of the more powerful

players and the priorities of funding bodies rather than the most pressing needs of the Peel-Harvey catchment being identified and resourced by a sound governance approach.

The review has also identified a disconnect between planning decisions and subsequent environmental consequences and on-going management requirements as a major barrier for implementation, that partly explains the little progress made to date in including WQIP targets and recommendations as part of the statutory planning framework and the absence of a Catchment Management Plan.”

To overcome these barriers and issues 40 recommendations are provided, with five of them being critical core enablers (CE), that are essential if the WQIP is to be implemented at the scale required for water quality targets to be achieved.

E1-IORI State Government lead a shift in Governance that secures the adequate level of resourcing and influence to a lead agency or a consortium/partnership to be responsible for the whole WQIP strategy implementation. This lead agency or consortium will also ensure monitoring and evaluation is carried out so progress on the implementation can be assessed.

CE2-FM1 State Government commit to a long term, effective rural fertiliser management program to reduce nutrient loss from agricultural activities, through a regulatory and/or incentive scheme.

CE3-SAI Government establish a clear policy and approvals framework for the use of soil amendment products to improve water quality in the Peel Harvey.

CE4-UGP1 State Government (WAPC) ensure that WQIP water quality targets are incorporated into all levels of land use decision making.

CE5-UGP2 State Government (WAPC) integrate WQIP recommendations into the landuse planning process, including the preparation of a Catchment Management Plan endorsed by the Western Australia Planning Commission and the Environmental Protection Authority.

The full review can be viewed on the PHCC website. Copies have been provided to the OEPA and Department of Premier and Cabinet for their consideration in the Strategic Assessment.

13. Agency and Officer Reports

13.1 Bob Pond – Department of Water

- ‘Zitty’ recently retired.
- The water allocation section has received clearance for a Level 5 to join the crew which will boost the section.
- A proposal put forward to do away with nutrient monitoring in the estuary.
- Potential for DoW to amalgamate with DEC.

13.2 Craig Olejnik – DEC

- From July Craig’s his role will be with Department of Parks and Wildlife. The regulatory side of DEC will split and remain DEC, to be merged with DoW. From 1 January the new department will be in place and the name DEC will cease to be as an agency.

- Keiran McNamara, the Director General, passed away since the last meeting. His passing is a big loss as he provided strong leadership to the Department. Jim Sharp is acting in that role.
- Martins Tank (Yalgorup) camp ground is being upgraded. Will reopen mid-July.
- QR codes on signs are being trialled and will link to YouTube on western ringtails.
- Now coming into the prescribed burning season.
- There is a new threat – myrtle rust – DAFWA is very concerned with the potential impact on WA biodiversity. Workshops will be held on 20-24 May in Perth, Bunbury and Albany to give training to those in the field. Myrtle rust is likely to arrive via airports.

ACTION: Craig to forward the link to the website for more information on myrtle rust.

- Penguin Island baiting – there is no indication of rats in the last two weeks and 20 tracker tunnels and camera tracks haven't seen any evidence. Quietly confident they have achieved the eradication targeted.
- Had an engineer from Dave Wills Engineering to prepare a scoping document for the secondary weir at Mealup. Have \$50,000 from SWCC. Heidi is starting on that project. Dave Wills has been valuable.

13.3 Francis Smit - Landcare SJ

- Grant applications have been submitted for cockatoo nest boxes (for the northern wheatbelt) and equipment for the Landcare Centre.
- Current projects include:
 - Planning for our revegetation sites for the 2013 season.
 - Removal of lantana at a site on the Serpentine River.
 - Spraying and dieback treatment in Brickwood Reserve.
 - Arum lily and blackberry removal to commence on the Serpentine River.
- SJ LCDC is running bi-monthly info sessions this year – includes PhD research “can plants hear?”
- New website for the cockatoo nest boxes www.blackcockatoos.org.au
- Three SJ Shire Councillors have resigned - representatives have been lost from SJ Landcare Committees.

13.4 Kristy Gregory - Landcare SJ

- Cotton bush mail out to 1500 landholders – lots of responses, including requests to receive their newsletter.
- Application to Community Landcare Grants - \$50,000 for fox/rabbit baiting seasons, camera and vermin traps, fencing and nest boxes. Funds to cover SJ, Murray, Waroona and Harvey.
- Healthy Habitats Program ran for two years in partnership with the SJ Shire (part of implementation of their Biodiversity Strategy). Recent State NRM audit of this project gave very positive feedback and they have been encouraged to apply again. Bodhinyana Buddhist Monastery is our most recent member to this program.

13.5 Colleen Archibald – NRM Support Officer

- The Peel Ramsar Lakes project is winding up at the end of May/June.
- An extra 1.3kms of fencing was needed to meet outcomes. A contractor has been organised to do the fencing.
- A couple of weeks ago did some photo monitoring. This site has good survival rates. Overall it is looking really good.
- At the Weir a lot of regeneration is happening. Kangaroos are eating seedlings. There is natural regeneration at the weir.

13.4 Paddy Strano – Stormwater Strategy Officer

- Local Government Stormwater Strategy
 - Project Stakeholder Group meeting
 - Meet with City of Mandurah regarding the LGSS
 - Delivered the gap analysis report to the Shire of Waroona.
- Reviewing and developing the Safety Manual and Safety Policy. ‘In Safe Hands’ training session
- Continuing the development of the Sampling and Analysis Plan for the Shire of Murray as a fee for service. Visiting sites.
- Caring for our Country application.

Pat Sutton left meeting at this point and Jane recorded the rest of the meeting

13.5 Rob Summers – DAFWA

The whole farm nutrient mapping WFNM project:

- soil analysis has been slow from CSBP due to unprecedented demand
- final maps have been sent out
- no more sampling this year
- tenders have been received for the soil sampling and currently under evaluation.

Swan River Trust soil amendment trials and demonstrations at Ellen Brook:

- final report of the project near completion
- Stage 2 is a demonstration of 50 ha of Lime amended bioclay from Water Corp
- 2500 t is being produced
- final approval for unrestricted use from Health and DEC
- Water Corp are working on a QA/QC system for production of the 2500 t
- Extension of the project for another 2 years
- Field work has started for this winter
- Chem Centre has been trained in the field sampling
- Field site has been fertilised and re-seeded
- More test plots have been added.

Southern Gateway Alliance wetland filter on Forest Highway:

- final report nearing completion
- decommissioning the site
- filter wall too slow at filtering the volume of water (not permeable)
- no issues with water quality from Alkaloam
- nutrients removed
- wetland itself was effective at removing nutrients (over 4 years still working)
- stream beds could be effective nutrient removal sites.

12. Next Meeting

The next meeting of the PHCC is scheduled to be held at 9.00am on Thursday 20 June 2013 at the **Marine Operations Centre.**

The meeting closed at 2:00pm

Chairman

Date

Summary of actions from previous meetings:

No.	Details	Resp.	Complete
1.	Chairman's Report [Item 7, 16 August 2012]. There was a need to focus on successes, such as frogs returning to Lake Mealup. Progress towards getting a link of frog sounds onto website. <i>Jane has found software and will continue to explore (18/10/12).</i>	Jane O'Malley	In progress
2.	Chair's Report [Item 7, 20 September 2012] Oil Mallee. Maxine to forward information on Oil Mallee initiative to Jan for distribution. <i>Further liaison required with SWCC about future of oil mallees already planted and their role in the CFI. Maxine to follow up. 18 April 2013 - There is a role for DAFWA but their funding has been cut.</i>	Maxine Whitely	
3.	Agency and Officer Reports [Item 11.1, 20 December 2012]. Find out details of the DoW groundwater assessment program being delivered by Carey Johnston and see if it is relevant for a future presentation. <i>18 April 2013 - Bob to arrange a presentation on the DoW groundwater assessment program.</i>	Bob Pond	Bob to advise
4.	Agency and Officer Reports [Item 11.3, 20 December 2012]. DEC to provide presentation in 2013 on results of fauna surveys, showing species such as Honey Possums. <i>[18 April 2013] DEC to provide presentation at the meeting scheduled for Thursday 20 June</i>	Craig Olejnik	Pending

Summary of actions from meeting of 18 April 2013:

No.	Details	Resp.	Complete
1.	Items for Comment - Correspondence In [Item 6.1, 18 April 2013]. Submission - Strategic Assessment of Perth and Peel Region Jane to write to the City of Mandurah, congratulating them on their proactive approach in preparing the submission on the Strategic Assessment of the Perth and Peel Region and advise it was well received by the PHCC.	Jane O'Malley	
2.	Periodicals [Item 6.3 referring to item 3.9] Jane to look at submitting nominations in relevant categories of the 2013 Banksia Awards (closing 26 July).	Jane O'Malley	
3.	Chairman's Report [Item 7, 18 April 2013] Pat to upload the PHCC submissions on the Strategic Assessment of the Perth and Peel Region on website.	Pat Sutton	
4.	Executive Officer's Report [Item 8.1, 18 April 2013] Write to Don Randall asking for his support for PHCC applications for funding under the CfoC & Clean Energy Fund (Biodiversity) funding.	Jane O'Malley	
5.	Agency Reports [Item 13.2, 18 April 2013] Craig to forward the link to the website for more information on Myrtle Rust.	Craig Olejnik
