

You are invited to a community presentation

Shire of Williams

Roadside Vegetation Survey and Mapping Project

When: Wednesday 23 July 4pm

Where: Williams RSL Hall, Brooking Street

Find out the results from the 2 year survey project

Check out the maps and weed overlays produced

Find out how you go about nominating a Flora Road

*What are the most common roadside weeds,
and which ones are best to target for control?*

What threatened flora and fauna species are found in roadside vegetation?

*Investigate funding opportunities for weed control and revegetation
projects to create corridors that link bushland for animal habitat
and movement*

Hope to see you there!

RSVP
