

## RAMSAR NATIONAL CEPA ACTION PLAN FOR AUSTRALIA 2016-2018

Australia will implement the Ramsar Communication, Capacity building, Education, Participation and Awareness (CEPA) Programme 2016-2024 through a series of National CEPA Action Plans, with the first covering the triennium, 2016-2018.

**CEPA roles and responsibilities:** Australian national, state and territory governments are responsible for promoting the conservation of Ramsar sites and wise use of all wetlands in their jurisdictions. The Australian Government is also responsible for leading the development of national guidance and approaches on implementing the Ramsar Convention in Australia and reporting on implementation. The Australian Government leads national CEPA activities and helps coordinate CEPA initiatives with state and territory governments. CEPA activities are also an important component of Ramsar site management which is the responsibility of site owners or legal managers who may be the Australian or state/ territory government, an individual, a community entity, trust, Traditional Owners, a company or other organisation. Non government organisations with a wetland conservation or education focus also play important roles in delivering CEPA activities.

**Ramsar CEPA Programme Vision:** The vision of the Ramsar Convention’s CEPA Programme is the same as the vision of the Strategic Plan: “Wetlands are conserved, wisely used, restored and their benefits are recognized and valued by all”.

**Goals and targets:** The over-arching Goal of the Ramsar Convention’s CEPA Programme is “People taking action for the conservation and wise use of wetlands”. The Programme identifies nine Goals and 43 targets to achieve the vision. The programme covers full range of CEPA actors but not all goals and targets apply at every level.

CEPA Programme Goals	Targets (set in Convention’s CEPA Programme)	Actions for Australia for 2016-2018	Output/outcome measure Outcomes across the country will be consolidated for reporting purposes	Priority (H, M, L)
1. Ensure leadership to support effective implementation of the Programme by providing institutional mechanisms and establishing and supporting relevant networks.	1.1 Appropriately experienced people to fill the roles of National Government and Non-governmental Organization CEPA Focal Points (see Appendix 2) nominated by Contracting Parties and	1.1 Appoint appropriate people as National Government and NGO CEPA National Focal Points and advise Secretariat (AG, ongoing).  1.2 WAESC to continue acting as the national	NFPs appointed  WAESC meetings held	H

	<p>communicated to the Ramsar Secretariat. {AA , CSO}</p> <p>1.2 National Ramsar/Wetland Committees established to collaborate with relevant government departments and institutions to mainstream wetlands and their ecosystem services. {AA, NRC}</p> <p>1.3 National Focal Points (AA, CEPA and STRP) included as members of National Ramsar/Wetland Committees where these exist. {AA, NRC}</p> <p>1.4 Email networks that connect and support Administrative Authorities, National Focal Points, Site managers and other Ramsar implementers established and supported at global and national levels. {RamSec, AA, STRP,</p>	<p>Ramsar Committee (AG, ongoing) (National Report Q16.4)</p> <p>1.2 Outcomes of VIC Audit to be shared with WAESC members (Vic, proposed)</p> <p>1.2 VIC to convene a high level inter-agency government group to oversee the implementation of agreed roles and responsibilities for Victoria's Ramsar sites (Vic, proposed)</p> <p>1.3 Invite CEPA NGO National Focal Point and STRP National Focal Point to specific WAESC meetings (AG, proposed).</p> <p>1.4 Utilise existing email networks (such as Australian Wetland Network, NFPs, Wetland Education Centres) to promote Ramsar-related activity, events and resources (AG, ongoing).</p> <p>1.5 Build and foster relationships between governments, NGOs and Indigenous organisations, including through regular wetland stakeholder forums (AG/states, proposed).</p> <p>1.5 Participate in and support the East-Asian Australasian Flyway Partnership (AG/states, ongoing)</p> <p>1.5 Build stakeholder relationships though engagement activities such as advisory groups, program governance groups and practitioner networks (AG/states, ongoing)</p> <p>1.5 PHCC has obtained project funds from various</p>	<p>Issues addressed (National Report Q16.4)</p> <p>Group in place by June 2017</p> <p>NFPs attend meetings</p> <p>Stakeholder databases identified and used</p> <p>Number of notifications sent</p> <p>Forums held</p> <p>Number and variety of participants</p> <p>Attendance at and contribution to meetings (National Report Q15.1, 15.2, 18.9)</p> <p>Survey of Wetlands Australia readers</p> <p>Emails sent</p> <p>Website hits</p> <p>Media and social media coverage (national Report Q16.6)</p>	
--	---	--	--	--

	<p>IOPs}</p> <p>1.5 Relationships developed and maintained with those organizations that can support Ramsar objectives through their expertise, their traditional knowledge, their human resources or through funding established and fostered. {RamSec, AA, IOPs}</p> <p>1.6 Effectiveness of strategies, especially regarding development and distribution of materials on wetland education and management, the success of campaigns under WWD evaluated. {RamSec, AAs, NRC, NFPs}</p>	<p><u>sources to conduct Shorebird ID courses to train volunteers to count birds. These training courses have been conducted annually since 2008. when enrolling in the courses the participants commit to take part in the annual Shorebird 2020 count.</u></p> <p>1.6 Evaluate reach and success of WWD initiatives and material, including <i>Wetlands Australia</i> magazine, and information/educations websites such as <i>WetlandInfo</i> (AG/states, ongoing)</p>		
<p>2. Integrate CEPA processes, where appropriate, into all levels of policy development,</p>	<p>2.1 CEPA expertise involved in the development of guidance by the Convention's bodies</p>	<p>2.1 N/A</p>		<p>M</p>

<p>planning and implementation of the Convention.</p>	<p>including the Scientific and Technical Review Panel (STRP) and Standing Committee (SC). {RamSec, STRP}</p> <p>2.2 Wetland communication (CEPA) plans developed at the appropriate level by Parties (national, basin or site) to support Ramsar implementers. {AA, NRC, CSO}</p> <p>2.3 Where appropriate, wetland CEPA integrated into national policy and planning relevant to wetlands. {AA, CEPA, NRC}</p>	<p>2.2 Develop National CEPA Plan (AG, proposed) and implement actions within Plan (AG/states, proposed)</p> <p><u>2.2 PHCC has developed a draft PYS Wetlands and People Plan (CEPA). This is a direct outcome from the Site Management Plan, Strategy 9: <b>9 Strategy: Strategic awareness raising project</b></u></p> <p><u>9.1 Prepare a communication, education and public awareness raising (CEPA) strategy to promote the international importance of the Peel-Yalgorup Ramsar Site, and our commitments to the Ramsar Convention for wetland ‘wise use’.</u></p> <p>2.3 Integrate CEPA (particularly promotion of wetland values) into actions within the Ramsar Implementation Plan (AG, ongoing).</p> <p><u>2. 3 PHCC has a direct example, i.e. a draft CEPA Plan – see 2.2 above</u></p> <p>2.3 Promote wetland values through:</p> <ul style="list-style-type: none"> <li>• Protected area policy and planning</li> <li>• Murray Darling Basin Plan</li> <li>• GBR planning</li> <li>• Heritage policy and planning</li> <li>• Other policies and planning</li> </ul>	<p>Plan developed and published online (National Report Q16.1) Reports on implementation CEPA actions included</p> <p>Number of references to Ramsar and wetland values included in plans</p>	
<p>3. Provide support to implementers of</p>	<p>3.1 The Strategic Plan 2016-2024 adopted by</p>	<p>3.1 Disseminate and promote the Strategic Plan to relevant stakeholders (AG/states, ongoing)</p>	<p>Number and variety of stakeholders receiving Strategic</p>	<p>H</p>

<p>wise use principles, especially those with a direct role in site management.</p>	<p>COP12 disseminated and promoted.</p> <p>3.2 Appropriate guidance materials that support and encourage the wise use of wetlands produced for use at Ramsar Sites and other wetlands and by wetland networks. {RamSec, STRP, IOPs, CSO}</p> <p>3.3 Websites, including the Convention’s website, to be further developed to be fit for purpose and be a useful platform for the sharing of information and resources, including the sharing of information and experiences among CEPA National Focal Points. {RamSec, STRP, AA}</p> <p>3.4 Appropriate Ramsar Sites and other wetlands to be celebrated as “demonstration sites” for the wise use principle, and these sites suitably equipped</p>	<p>3.2 Disseminate Ramsar and other materials such as National Guidance, <i>Wetlands Australia</i> and fact sheets to Ramsar site managers and wetland networks (AG/states, ongoing).</p> <p>3.2 Develop and disseminate communication materials and educate stakeholders about the Ramsar Convention and wetlands (states, ongoing)</p> <p>3.3 Develop and better integrate wetland information on wetlands website and link with other stakeholder websites (AG/states, ongoing).</p> <p>3.3 Information on Australia’s Ramsar wetlands provided to Secretariat, including uploads to RSIS, for use by Australian and international wetland stakeholders (AG, ongoing)</p> <p>3.4 Promote specific Ramsar sites and all wetlands through publications, brochures, fact sheets, and work with Wetland Education Centres and site managers to promote wetlands(AG/states, ongoing).</p> <p>3.5 Disseminate material provided by the Ramsar Secretariat and STRP to relevant stakeholders including WAESC members, site managers and NGOs (AG, ongoing).</p> <p>3.6 Work with Convention on Biological Diversity</p>	<p>Plan</p> <p>Number of materials sent Number of recipients (National Report Q16.5a)</p> <p>Number of links between relevant websites (National Report Q16.5, 18.5) Material uploaded (National Report Q 18.6)</p> <p>Number and distribution of publications (National Report Q18.5)</p> <p>Materials sent Number of recipients</p> <p>Content on Ramsar and wetlands included in strategies Extent of liaison with MEA NFPs (National Report Q16.5b, 18.1))</p>	
---	---	---	--	--

	<p>in terms of capacity, signage, and interpretive materials. {AA, CEPA, IOPs, CSO, STRP NFPs}</p> <p>3.5 Secretariat requested to share CEPA stories which illustrate how integration of CEPA can improve wetland management. {RamSec}</p> <p>3.6 Collaboration on CEPA with other Conventions, Ramsar IOPs, other NGOs, UN agencies and others ensured through sharing of CEPA experiences and the encouragement of synergies. {RamSec, IOPs, CSO, AA, CEPA}</p>	<p>and UN Framework Convention on Climate Change teams to promote and integrate wetland values and conservation through the Australian Biodiversity Conservation Strategy and National Climate Resilience and Adaptation Strategy (AG, ongoing).</p>		
<p>4. Build the individual, institutional and collective capacity of people with a direct responsibility for Ramsar implementation.</p>	<p>4.1 Managers supported to build communication, education, participation and awareness into their management plans. {RamSec, STRP, AA, CEPA, SM, RRCs, CSO, STRP NFP}</p> <p>4.2 Current needs and</p>	<p>4.1 Promote Ramsar Management Principles, promote and continue to develop Guidelines, assist site managers to prepare ECDs and encourage the preparation of management plans that contain CEPA activities for Ramsar wetlands (AG/states, ongoing). See also action 3.3.</p> <p>4.2 Maintain a watching brief on current training availability and potential training needs (AG, ongoing).</p> <p>4.2 Assess capacity needs through regular <u>surveys</u>.</p>	<p>Extent of inclusion of CEPA in management plans (National Report Q9.4)</p> <p>Training offered (National Report Q19.1, 19.2, 19.3)</p> <p>Stakeholder forums held</p>	M

	<p>capacities of wetland site managers and National Focal Points assessed and the results used to define training and capacity-building priorities at regional and national levels. {RamSec, STRP, AA, CEPA, SM, RRCs, STRP NFP}</p> <p>4.3 Resources provided to produce appropriate wetland management training and capacity building materials and carry out the prioritized training and capacity building as identified in 4.2. {RamSec, AA, CEPA, STRP, SM, RRCs, CSO, STRP NFP}</p> <p>4.4 A network of Ramsar Regional Centres working to agreed standards (such as peer reviewed materials) supported to deliver capacity building to site managers, National Focal Points and other relevant stakeholders.</p>	<p>stakeholder forums (see actions 1.5 and 3.3) and convey to relevant areas of DoEE (e.g NESP, NRS and Climate Adaptation) (AG, proposed).</p> <p>4.3 Provide wetland management training through courses, workshops and online modules (states/educational institutions/NGOs, ongoing) <u>Provide resources to NGO/comunitiy to develop courses and to participate in courses, especially where they are held interstate, e.g. there are great courses held at Sydney’s Olympic Park wetlands but they are too expensive to attend from WA.</u></p> <p>4.4 Investigate development of Ramsar Regional Centres for the Oceania (AG, S/T, wetland stakeholders). <u>4.4 PHCC is developing, with partners, a Peel Waterways Institute, for the Peel-Yalgorup Site.</u></p> <p>4.5 Explore options for partnerships through NESP, e.g. through its Northern Australia Environmental Resources Hub and Tropical Water Quality Hub (AG, proposed). 4.5 Pursue ARC linkage grants 4.5 Continue to engage with and promote CEPA</p>	<p>Progress on development of proposal (National Report Q15.1, 15.2)</p> <p>Number of relevant projects and promotion of their results Extent of wetland CEPA/training/ research by tertiary institutions (National Report Q19.2)</p> <p>Wetland services recognised Number of assessments incorporating wetland advice</p>	
--	--	--	---	--

	<p>{RamSec, RRCs, STRP}</p> <p>4.5 Partnerships with tertiary education institutions and other relevant organisations are developed to support the production and delivery of wetland management training and capacity building materials and programmes. {RamSec, STRP, RRCs, CSO, PS, AA, CEPA, STRP NFP}</p> <p>4.6 National strategic plans that strengthen the technical capacity and management of local authorities to incorporate environmental benefits and services of wetlands as strategies for local and regional development promoted. {AA, CEPA}</p>	<p>actions through MDBA and MDFRC (through EWKR project). Develop relationships with a range of institutions to foster CEPA actions. (AG, proposed)</p> <p>4.5 Partner with a range of organisations to deliver improved capacity to manage wetlands (state/organisations/NGOs, proposed)</p> <p>4.6 Implement wetland wise use through MDB Plan and GBR plans (AG/states, ongoing).</p> <p>4.6 Integrate wetland conservation in EPBC Act strategic assessments (AG, ongoing).</p>		
<p>5. Develop and support mechanisms to ensure multi-stakeholder participation in</p>	<p>5.1 Participation of major stakeholders used by site managers and others as an effective process for selection of Ramsar Sites and</p>	<p>5.1 Promote consultation requirements in national Ramsar nomination guidelines (AG, ongoing).</p> <p>5.1 Through MDB Plan and programmes such as</p>	<p>Extent of stakeholder consultation in nomination processes (National Report Q16.3b)</p> <p>Mention of catchment approaches in programme guidelines (National Report Q16.3a)</p>	<p>H</p>

<p>wetland management.</p>	<p>management of all wetlands, including at basin level. {AA, SM, CEPA, CSO, STRP NFP}</p> <p>5.2 Participation in wetland management of stakeholder groups with cultural, spiritual, customary, traditional, historical and socio-economic links to wetlands or those communities who depend on wetlands for their livelihoods is given a high priority. {AA, SM, CEPA, CSO, RRI}</p> <p>5.3 The use of practices and traditional knowledge systems that embody appropriate wetland cultural management by Indigenous peoples and local communities recovered, strengthened and</p>	<p>NLP, encourage whole of catchment approach to wetland management including irrigators, water managers, conservation groups, Indigenous people (AG, ongoing).</p> <p>5.1 Engage site managers and stakeholders in forums including advisory groups and NRM bodies (States, ongoing)</p> <p>5.2 Foster joint management with Indigenous people (through nomination process, management planning), encourage adherence to Ramsar Management Principles, continue to promote consultation in implementation of the MDB Plan and continue to promote Indigenous management of wetlands through Working on Country and other programs (AG/states, ongoing). <u>This is a key part of PHCC activities. PHCC has an "Aboriginal Participation Plan" developed with the local Noongar community.</u></p> <p>5.3 Collaborate with NESP Hubs to support the integration of Indigenous ecological knowledge (IEK) to build collaborative opportunities and capacity for wetland management (AG/states, proposed).</p> <p>5.4 Promote engagement of communities, including Indigenous communities, in wetland conservation through AG programmes such as NLP, Green Army, Reef Trust and state programs (AG/states, ongoing). <u>We have current examples of projects. E.g. Working with the Binjareb people at the Murray River Massacre site.</u></p> <p>5.4 Promote and encourage engagement of</p>	<p>Participation in forums and groups</p> <p>Number of Ramsar sites jointly managed</p> <p>Local and Indigenous participation in management (National Report Q10.3, 16.3a)</p> <p>Case studies/projects on cultural aspects of wetlands (National Report Q10.2)</p> <p>Numbers of projects involving Ramsar and other wetlands</p> <p>Extent of participation</p> <p>Number of targeted publications</p> <p>Number of partnerships</p>	
----------------------------	--	--	--	--

	<p>encouraged. {AA, CEPA}</p> <p>5.4 Encourage community participation in wetlands through volunteer programmes which support the delivery of management objectives. {AA, SM, CSO}</p> <p>5.5 Relationships with the private sector are sought &amp; developed, including non-traditional sectors and those sectors whose activities have a major impact on wise use of wetlands. {AA, NRC, SM, PS}</p>	<p>community groups (eg BirdWatch, FrogWatch, Seagrass Watch, Mangrove Watch, Landcare) in monitoring of Ramsar wetlands via relationships with Rasmar site managers, NGOs and WECs and through relevant e-news publications (AG/states, ongoing).</p> <p><u>5.4 Annual Shorebird 2020 Count. PYS is largest in area (26,350ha) and volunteer numbers (&gt;60), and some years birds counted (2013 &lt;90,000).</u></p> <p>5.5 Promote wetland values to local government and industry associations as well as AG industry departments through Fact Sheets and targeted information (AG/states, proposed).</p> <p>5.5 Promote existing and new sustainable tourism partnerships at wetlands (AG/states, ongoing/proposed).</p> <p><u>- PYS Wetlands and People Plan addresses this.</u></p>		
<p>6. Implement programmes, projects and campaigns targeting diverse sectors of society to increase</p>	<p>6.1 Wide-reaching programmes, projects and campaigns, including World Wetlands Day, undertaken with</p>	<p>6.1 Promote WWD and related wetlands information and publications, promote migratory bird conservation (e.g. through World Migratory Bird Day, 14th May); develop/promote wetland Indigenous calendars; promote wetlands through other relevant activities and national/international</p>	<p>Number of wetland publications Number of WWD events (National Report Q16.6, 16.7)</p>	<p>H</p>

<p>awareness, appreciation and understanding of wetlands and the ecosystem services they provide.</p>	<p>diverse partners to raise awareness, build community support, and promote stewardship approaches and attitudes towards wetlands, in particular through the use of social media. {RamSec, AA, NRC, CEPA, SM, IOPs, RRCs, PS, CSO}</p> <p>6.2 Awareness enhanced on the monetary and non-monetary values of wetlands and their ecosystem services to improve understanding of the benefits which wetlands provide. {RamSec, STRP, AA, CEPA, SM, STRP NFP}</p> <p>6.3 Photo libraries, promotional videos and other similar tools developed and/or maintained to support awareness raising and appreciation of wetlands and their ecosystem services.</p>	<p>days (biodiversity, parks, environment, oceans etc) (AG/states, ongoing).</p> <p>6.1 Start planning for 50th anniversary of Ramsar signing (2021) (e.g. advocate with Royal Australian Mint for a commemorative coin and Australia Post for commemorative stamp) (AG, proposed).</p> <p>6.2 Undertake economic valuation study of disaster/natural hazard risk reduction services provided by Australian coastal wetlands consultancy' (AG, proposed).</p> <p>6.2 Discussions with relevant AG portfolios (AG, ongoing).</p> <p>6.2 Promote outcomes of research and policy work relating to blue carbon (AG, proposed)</p> <p>6.2 Integrate values of wetlands through initiatives and programs such as Walking the Landcape and whole of catchment management (states, ongoing)</p> <p>6.3 Promote Ramsar photographic competitions and exhibitions (AG, ongoing).</p> <p><u>- PHCC has held competitions in the past – 2013's focussed on Lake Clifton and the Thrombolites.</u></p> <p><u>- Local award winning photographer David Rennie is an official Ramsar ambassador for our site</u></p> <p><u><a href="http://www.ramsar.org/search?search_api_views_fulltext=rennie">http://www.ramsar.org/search?search_api_views_fulltext=rennie</a></u></p> <p>6.3 Maintain and provide access to Commonwealth and state wetland images and videos (AG/state, ongoing).</p> <p><u>- PHCC often provides agencies with images for agency publications.</u></p> <p>6.4 Promote wetlands and related activity (e.g.</p>	<p>Approaches made to Mint and Aust Post</p> <p>Study completed and results disseminated</p> <p>Discussions held (National Report Q16.5c)</p> <p>Stakeholders advised, website hits Number of images and videos</p> <p>Website hits Number of Tweets Social media coverage (National Report Q16.7)</p>	
---	---	---	--	--

	<p>{RamSec, AA, CEPA}</p> <p>6.4 Collaboration with the media, including social media, carried out to promote the conservation and wise use of wetlands and recognition of their ecosystem services to decision-makers, key wetland users and the broad public. {RamSec, AA, CEPA}</p>	<p>WWD) through Departmental communications and social media platforms and other stakeholders' websites, newsletters and social media platforms (AG/states, ongoing).</p>		
<p>7. Recognize and support the role of wetland centres and other environmental centres as catalysts and key actors for activities that promote Ramsar objectives.</p>	<p>7.1 Wetland education/ interpretation or visitor centres and similar facilities established in all countries as resources permit. {AA, IOPs, WEC}</p> <p>7.2 National CEPA Focal Points communicating directly with wetland education/visitor centres to support their delivery of Ramsar messages. {AA CEPA, WEC}</p> <p>7.3 Wetland education/visitor centres linked nationally and</p>	<p>7.1 Keep updated list of major Australian WECs (AG, ongoing)</p> <p>7.2 Communicate and disseminate regular updates and information to WECs, and promote key events and publications (WWD; Ramsar publications, <i>Wetlands Australia</i>) to them (AG/states, ongoing).</p> <p>7.3 See 1.5 and 7.5</p>	<p>Number of WECs (National Report Q16.2)</p> <p>Number of notifications</p> <p>Details provided</p>	M

	<p>internationally through, global mechanisms and national expertise in CEPA, to share experience and resources, for example through the Wetland Link International (WLI) programme of the Wildfowl &amp; Wetlands Trust, WWT (UK) and other initiatives. {AA, CEPA, WEC}</p> <p>7.4 Partnerships established with other education centres that could play a role in promoting wetlands and Ramsar objectives. {AA, CEPA, RRCs,WEC}</p> <p>7.5 A comprehensive database of wetland education centres set up, to be managed through the WLI network. Contracting parties to be encouraged to provide information on wetland centres as part of their national</p>	<p>7.4 Regularly disseminate information and updates to marine discovery centres and sustainable schools (AG, ongoing).</p> <p>7.5 Undertake national survey of Australian wetland education centres and provide results to WLI. (AG, completed).</p>	<p>Number of notifications</p> <p>Survey undertaken and results provided</p>
