

Farm Planning in a Fire Prone Landscape

Train the Trainer: Farm Planning Extension Program

commencing Tuesday August 3, 2021

Peel-Harvey Catchment Council and Regrarians® are proud to be partnering in the delivery of a Farm Planning and Train the Trainer package for Farmers and NRM Professionals.

Registrations close **July 5**, please contact your Regional Representative (details overleaf)

Phase 1 involves participation in the 13 week online REX® program (a comprehensive “Live” Online Farm Planning Package) and a bonus two week online training program for pre-post fire management planning. Phase 2 offers the opportunity to build extension skills through a specially applied approach – the onsite ‘pre-post’ fire management training workshop. The package also includes a year of online support and follow up, all delivered by Darren J. Doherty and the team at Regrarians®.

limited sponsored places available!

Phase 1 Online Training

REX® Farm Planning Training Program & exclusive Fire prevention, mitigation and recovery strategies (valued at \$1,000*)

Step 1: Online Farm Planning Training - 13 weeks 2 x 3 hours/week (recorded to review or if a session is missed)

Commencing Tuesday August 3 (Tues/Fri weekly) and concluding October 29. REX® Farm Planning Program (including water management). Full details at http://www.regrarians.org/product/phcc-training_program/

Step 2: Regrarians® Pre-post Fire Management Planning, prevention, mitigation and recovery strategies

Dates to be determined to best fit participant seasonal commitments

Phase 2 Onsite Workshop

Train the Trainer: Pre-Post Fire Extension Program (valued at \$1,060*)

Step 3: Onsite 5 day Workshop - Participatory train the trainer program for NRM Professionals (the trainees), and their partnered Farmers, who have completed Steps 1 and 2 in partnership with an NRM Professional.

Dates to be confirmed March/May 2022

**value is per team (one NRM professional and one farmer)*

More details overleaf...

A limited number of sponsored places are available, where nominated farmers undertake the farm planning program in partnership with an NRM Professional, at no financial cost.

Sponsored landholders will work one-on-one through the program with an NRM Professional. By the end of the Program farmers will have a world-leading farm management plan, which includes theoretical and practical applications of farm management planning, including water management and fire planning, mitigation and recovery, and you will have participated in agricultural extension training at the same time.

NRM Professionals will have built a quality skill set for delivering extension programs, including strategies for liaison with, and management of, individual land holder needs, especially in regard to post-fire situations.

Further details

Steps 1 & 2: REX® Farm Planning Training Program & exclusive “Fire” prevention, mitigation and recovery strategies commences Tuesday August 3 for 13 consecutive weeks (Tues/Fri weekly) of REX® training concludes on October 29. Dates for “Pre-Post Fire planning” will be determined to best fit participant seasonal commitments.

a. **Online Training** REX® Farm Planning Program (including water management) 13 weeks (2 x 3 hours/week – Tuesday-Training/Friday-Q&A all recorded if you can’t make all sessions)

“Since it was inception in 2012 the Regrarians Platform® has provided people around the world with a planning process that is holistic, inclusive and thorough. Its 10 layers are adapted from the 8 factor ‘Keyline® Scale of Permanence’ that the renowned P.A. Yeomans outlined in 1958 and forms the basis to all of Regrarians Ltd. farm planning extension, outreach and advocacy” ~Regrarians~

b. **Pre-post Fire Management Planning - prevention, mitigation and recovery strategies**

Online Training 2 weeks (6 hours/week) focused ‘Fire’ training on fire prevention, mitigation and post-fire recovery strategies and water management. This builds on the successful *After The Fire* workshops held by PHCC and Regrarians in Waroona/Yarloop in 2016/17. Dates to be determined by participants to best meet consensus around seasonal commitments (either November 2021 or Feb/March 2022)

c. **Bonus inclusions** see full list www.regrarians.org/product/phcc-training_program/:

- Regrarians® Workplace - Planner level membership (1 year)
- Online Liaison, Planning and Management
- Annual - One on One Check In (1 hour per NRM Professional trainee/land manager grouping) with Darren Doherty

Step 3: Train the Trainer Pre-Post Fire Extension Program dates to be confirmed March/May 2022

d. **Onsite Workshop** (5 days) - Participatory train the trainer program for NRM Professionals (the trainees), and their partnered Farmers, who have completed Steps 1 and 2 in partnership.

- Day 1: Case management and liaison strategies (workshop format) for NRM Professionals (optional for Farmers)
- Days 2 and 3: ‘Regrarians Open Consultancy’ (ROC) onsite field visits for NRM Professionals (optional for Farmers)
- Days 4 and 5: *After the Fire* land planning and management assessments, including water management (workshop format) for NRM Professionals and partnered Farmers
