

Is your spreader wasting fertiliser?

Join us at an Accu-Spread demonstration day to find out

Did you know that the majority of fertiliser spreaders deliver highly variable spread patterns? This means some areas in the paddock receive too much fertiliser and others too little.

Join Australia's leading Accu-Spread specialist Russell Nichol, who will demonstrate how to test and calibrate fertiliser spreading equipment to increase productivity and reduce nutrient loss to waterways.

Date: Tuesday 7 June, 8am to 2pm

Location: Pinjarra, address to be advised on registration

Register: megan.leroy@peel-harvey.org.au

Lunch is provided. Please register and provide dietary requirements.
